That's why our prices are lower.

Wash Silks and Jap Silk Crepe
At \$1.45 per yd.

No other silk at anything like this price will equal these
lovely Summer Silks, for service or style. They are the
ideal silk for summer dress, skirt or blouse. Wash per-
fectly and will outwear most silks. In stripes and plain
shade, all wide widths.

Plaid Checked and Striped Taffeta
Silks At \$2.00 to \$3.50 per yd.

Silks for Separate Skirts, waist or full dresses. You
will be sure to admire the patterns, and the price and

Horrockses Galateas At 40c. a yd.

The genuine indigo dyes were used in these excellent goods
and we doubt if you will find their equal in the district.
Horrockses' Galateas are noted the world over for qual-
ity. It does not pay to make up cheap goods when you
can buy Horrockses.

Beautiful Dress Voiles At
37 1-2c. per yd.

Voile is the favorite cotton fabric for the Summer Gown.
Not only are these Voiles pretty and desirable, but they
are suited to warm weather and the price marked is
much less than their real value. Over a dozen pattern
to choose from in floral checks and plain shades, and all
double width.

Ginghams At 22 1-2c. per yd.

And this is the same quality you will find at most
stores priced at 25c. to 30c. The extensive range of pat-
terns and colorings will give ample room for a satisfac-
tory choice. Gingham dresses are fashionable—small
checks are now in favor.

OLIVE UNION PIC-NIC

The Union Pic-nic held on Monday, July 1st, was from every point of view a success, and fully justified the confidence of the committee in attempting the scheme. Favored with glorious weather between six and seven hundred people assembled on the grounds of Mr. Morrical, and from start to finish thoroughly enjoyed the day.

Principal Elliott was the chief speaker for the day, and emphasized the importance of closer co-operation in the agricultural interests.

A deputation composed of Messrs. Trimble, Rev. W. Hollingsworth and D. Cameron, introduced the question of establishing a Municipal Hospital. Later on we expect to put the question before each community. There is no doubt but that the young people present enjoyed fully the games and sports, etc., judging by their merry peals of laughter, while others, thanks to the sheltering curtains of the "Ford" passed some of the time in those "sweet nothings" familiar to the quiet observer.

Mention should be made of the loyal workers at the booth, representing each Sunday School, whose energies were taxed to the utmost to keep the thirsty crowd supplied. The committee wish to express their deepest thanks to Mrs. F. Heal, Mrs. A. Day, Messrs. Pitts, Foren and C. R. Abbott, who so kindly acted as judges in the contests, and to all others who assisted. We wish to express our appreciation also to Messrs. B. F. and F. Allison, H. Williams, H. Bickle, J. T. and Mrs. Reynolds, Breton and Wilson, A. A. Smith, C. Henn, L. E. Bell, also Mrs. G. Reynolds and Mrs. S. C. Abbott for the gift of prizes in various contests. After a flag drill by the children of the Sargent school, patiently trained by Mrs. Abbott and Mrs. Vander syl, all united in singing the national anthem, followed by three rousing cheers by Mr. Morrical.

A complete financial statement will be published in each of the following places: Sargent, Central, Eclipse and Spring Valley schools, also in the porch of the church in Clive.

Following are the winners of the various events:
Baby Contest—(1) Mrs. Rogers.
(2) Mrs. Reynolds.

GETTING ON THE GERMAN NERVES

A report from Geneva furnishes additional evidence of the effectiveness of the allied bombing operations over the Rhine Valley. The populations of the industrial towns that have been the targets of the allied airmen are leaving and rents have fallen 35 per cent, and the war industry of these places is greatly demoralized.

These are the results expected, and their importance can hardly be overestimated. When a working population is kept from working, not only by the destruction of plants as occurred at Mannheim and Karlsruhe, but by sleepless hours and shattered nerves, which effects have been amply testified to an appreciable slowing down of war activity is bound to be marked.

One other result that was less expected is as gratifying and perhaps as important. The people of the Rhine towns are reported to be indignant at the German government for failing to protect them from bombing. They had felt themselves secure and had been taught to believe Germany had the mastery of the air as well as of the sea and land. The discovery that they had been deceived and that so far from bringing England to terms by striking terror from the air, Germany has now become victim of the same weapon, has not increased their faith in German predictions of victory. Bombing was a great game when Germany held the weapons, but now that the Allies have demonstrated their superiority in the air, the

Rhine towns are ready to cry enough. They will cry louder soon. The American bomb programme is just getting into swing, and it has a special department of bombing which German war industrial centres will learn something before many months. Workers in these plants are going to have an efficiency test no training has prepared them for. The best workman's output will suffer when he has his car attuned for the warning of the approaching bombers, even without counting the loss of time he will spend in the cellar. The Rhine towns in Germany are going to learn something of war that wasn't in the books they have read.

JUDICIAL SALE OF FARM PROPERTY

Pursuant to the judgment and Final Order for Sale there will be offered for sale by Public Auction with the approbation of a Judge of the Supreme Court of Alberta, by Clarence F. Damron, Esquire, at the post Office at the Village of Bentley, in the Province of Alberta, on

Saturday, 27th July A.D. 1918 at the hour of two o'clock in the afternoon, the south west Quarter (¼) of section 21, Township 42, Range 1, West of the 5th Meridian in the Province of Alberta.

The property is situated six and one half (6½) miles from the Village of Rimbey, at which place there is a post office, School and Church.

The soil consists of clay loam, averaging from six to twelve inches deep, and the sub soil is clay. There are about forty acres of the said land that could be broken.

The property is offered for sale subject to a Reserve Bid which has been fixed by a judge. The purchaser is required to pay a deposit of ten per cent of the purchase price to the Vendor's Solicitor at the time of sale, and the balance is to be paid into court within sixty days without interest. In all other respects the terms and conditions of sale will be the standing conditions of sale of the Supreme Court of Alberta.

Further particulars can be obtained from the Vendor's Solicitor, A. M. MacDonald, Lacombe, Alberta. Dated at the town of Lacombe, in the Province of Alberta, this 27th day of June, A. D. 1918.

"Motorwise" Buyers are using McLaughlin Cars

McLAUGHLIN cars are more and more coming into popular favor among Motor wise men who make a minute study of real motor car value.

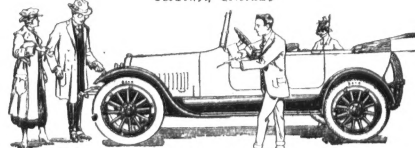

Now that motor cars are such a factor in business, men look for that particular mark of car representing highest value for the amount involved. McLaughlin cars give uninterrupted service due to their efficiency.

Men who buy McLaughlin cars are assured of real service—the kind of service which many companies are unable to give.

McLaughlin cars are made in Canada at the large McLaughlin factories in Oshawa. They are distributed, through 12 directly owned McLaughlin branches, and over 400 dealers. Branches and dealers keep repair parts and expert mechanics, assuring prompt and efficient service when it is needed.

One ounce of edible meat—lean meat, fat and lean, suet or fat, trimmed from steak, chop or roast—
A One-inch cube of meat weighs about One Ounce.

If saved every day by each of the 1,600,000 families in Canada would mean a daily saving for the soldiers and our allies of 100,000 pounds of meat.

or a saving in one year of—
36,500,000
pounds of valuable animal food.

This saving represents the meat from at least 90,000 steers of average dressed weight—

or from more than 290,000 hogs.

If every Canadian family can save this precious one ounce of edible meat or every day from the garbage pail or reduce their consumption of meat by this amount they would save enough to provide for the full meat ration for at least—
100,000 Canadian Soldiers.

ADVENTURISTS SENTENCED FOR REFUSING TO WORK

Calgary, July 5th.—Conscientious objectors, Seventh day Adventists and others of that ilk, are the bane of Lieutenant Col. Phil Moores life. For some little time past he has had considerable difficulty, especially with some of the Adventists, who, it might be stated, according to a ruling at Ottawa, enjoy immunity from combatant service. They are placed in non-combatant sections, such as the C.A.M.C., the C.A.S.C., or in the kitchens.

The utmost patience has been shown with them, but every effort has failed to induce them to work on Saturday. Two of these men who were in the culinary department at Victoria Park barracks positively refused to do any cooking on Saturday, and as the punishment for disobeying orders, which the colonel is allowed to inflict had no effect upon them, they were sent before a district court martial and sentenced to two years imprisonment, less one day in the Lethbridge jail.

FAIR PRICES

Earlier in the war there was much talk of "fixed" prices for food products and household necessities and many resolutions of protest were framed and passed by organizations more or less important because the government did not straightway take over the whole business of distribution and price fixing. We hear less of it now, not because living costs are any less than formerly but because it has been discovered that price fixing may prove to be a cure far worse than the disease it is intended to overcome.

In the United States many months ago the authorities actually did make an effort at price-fixing, the price being made for milk but at once the dairyman raised objection, and began disposing of their herds, claiming that at the price set they could not continue in business. So the price fixing move failed. But now the United States Food Administration has hit upon a new and better method. "Fair Price" lists are to be published in every county, hamlet, town and city in the country with the idea of bringing prices to a uniform level, thus protecting not only the average buyer but the patriotic merchant who has followed the suggestion of the administration from the dealers, who have attempted to take advantage of the war situation.

The administration will also establish in all communities, price interpreting committees, composed of wholesalers, retailers and consumers, and publish price lists which will give a wide range of maximum selling prices and reflex charges that should rule in cash and carry stores and a higher price representing a fair charge at credit and delivery shops. Each board will have detailed reports of actual wholesale prices and will ascertain fair margins of profits that should be made by the retailers, and the final fair prices will be widely published.

A further proposal is that retail price reporters are to be named in every county of the United States who are expected to keep a close check on the charges being made at the stores, reporting all dealers not keeping within the limits of

the "fair price" lists.

The further effort on the part of the authorities to make the way of the poor consumer easier across the line will be watched with much interest by Canadians. Things are not as they should be in this country yet by a long way and if the idea is found to work successfully with our neighbors there will be a demand for its introduction here.

WHICH—THE KAISER OR THE ACTOR?—END FIGHT THE WAR THE BEAST OF BABEL! At the Veteran, July 26th-27th

THE GREATER DANGER

"The king expressed surprise at the shortness of time under the Canadian system in which ex-soldiers become well equipped for industrial life."

The above is a sentence taken from the cable report of a visit of the king and queen to the inter-allied conference on returned soldiers, now being held in London.

The king by that single observation referred to the one serious danger which threatens our entire system of re-education of the soldier. Canada may be ahead of other nations in the re-education of the soldier, but Canada is doing more than it should do.

There seems to be a disposition on the part of the Dominion to hurry along this re-education process and to turn out the men as rapidly as possible. If the man can be fitted to take some kind of a job and shoved along, some time may be saved. There is suspicion that the government is rather inclined to make that kind of a record.

But that is not sufficient. It is not difficult for a returned soldier to get a job now. But the re-education of a soldier is far from complete if he gets no more than will qualify him for a job that may offer.

The soldier must be re-educated and made skilful in certain lines which he desires. There is greater danger of the soldier being turned out to quickly than being turned out not quickly enough.

ADVENTIST CONFERENCE

Yesterday was medical day at the Seventh-Day Adventist conference here. It was a cheering report to which the delegation listened from the superintendents and managers of their medical institutions in the province as they told of 40 per cent increase in financial gifts to Red Cross, free treatments to all the war veterans, thousands of gratis treatments to the poor, and yet the institutions were able to close the year with no serious deficit.

Dr. H. A. Bonde, superintendent of the Alberta Sanitarium in Calgary, reviewed the work of that institution. Altho founded but a year ago and doing a large part of the charity work, yet the institution had been able to be self-supporting, through the aid of friends. New operating equipment had been added for surgery. The rooms had been full of overflow; enlargement was greatly needed already. The spiritual interest had been made a prominent part of the institution life; a score of definite conversions were reported for the year. The delegates were urged to devise plans so that nurses' training class might be begun at an early date to supply the great need for nurses. Thousands of dollars worth of medical and surgical work had been done without charge. "It is our medical missionary ideal," said the doctor, "never to turn anyone away for lack of money or eye alone." Tribute was paid to his wife Dr. Dale E. Bonde, to whose skill and devotion as well as the staff of nurses and helpers the year's success was due.

Mr. George R. Close, manager of the Sanitarium Treatment Rooms in Calgary gave the annual report of that institution. Mr. Close had been called from St. Helena Island in the Pacific, where he had just less than a year ago. The treatment rooms had just been moved from the south side to eighth avenue upon his arrival. Thousands of treatments had been given, hundreds of them without charge; all war treatments had been given free; yet through the faithfulness of the staff the year was closed with practically no deficit.

Mr. S. H. Logan, detailed the year's work of the Sanitarium Treatment Rooms in Edmonton, which he had been selected to open one year ago. Similar results and success had followed as reported for the other institutions. No meeting seems to have won a more hearty response from the delegates than reports from this department. All the institutions were crowded and the opportunities to help the poor and the young were numerous. It was voted to strengthen and extend its work in all possible ways. But no definite extensions were considered possible now owing to the present scarcity of money.

Sunday's fine weather brought many visitors to the grounds. A J. Haysman preached on baptism. Following the sermon, hundreds gathered beside the lake to watch an impressive baptismal service. Pastor V. W. Kolb, as twelve were immersed in the waters of Barnett Lake. Three other baptismal services will be held during the meeting.

TRIBUTE TO P. E. WHITECOTTON (Contributed)

Last week this community was greatly shocked when the news was spread through from Petawawa Camp that E. L. Whitecotton was dead. Ernest, as we knew him,

"PEG O' MY HEART"

"Peg O' My Heart," J. Hartley Manners famous comedy with Betty Morrell in her original role of "Peg," which will be the attraction at the Veteran Wed. July 17 (tonight) is one of the very few dramatic offering now a days that can boast of two years continuous run in New York. The author had a hard time to convince managers that it was a good play, and it was left to Oliver Morosco to prove that he had the courage of his convictions—that that play can be free from moral lessons, discussion of either capital and labor or sexual sins and still be a good play, and it proved that this play had the breath of relief for which the audience everywhere had long been waiting. It is full of clever wit and humor, and comical situations and it is not without an abundance of heart interest.

TO CORRESPONDENTS

We would ask our valued correspondents to be careful in writing names of persons appearing in their contributions. Miss-spelled names are aggravating. We can make sense out of most anything except names. We have been compelled this week to leave out the list of contributors to some of the Red Cross sales in other parts of the district, because in a number of cases we could not decipher the names. The names are doubtless easy to the writers who know them, but we are at a disadvantage.

VENGEANCE AND THE WOMAN

"Fifteen years hard labor!" As the words fell from the lips of Judge Amos Fellows, presiding in a Federal District Court of Arizona "Black Jack" Haynes, so-called because of his cruelty rather than his complexion—erstwhile leader of a numerous Bandit Gang and a terror of three states, sprang from his chair inside the prisoners rail and made a lunge at Henry Blake, hardly more than a boy in years, but already honored as a Pioneer Railroad builder. He was seated 20 feet from Haynes, his wife Bessie, at his side.

Quickly two guards closed around the Bandit, handcuffs clicked on his wrists in a twinkling and he was prevented from reaching the calmly smiling young Capitalist who had been instrumental in bringing him to justice. The Bandits' captors started with him toward the door that led to the jail, but as he passed Blake, who had risen, he halted, and with an ugly oath snarled forth "I'll get you yet—yes, and your woman too!"

The girl now standing beside her husband, shrank against and buried her face in his coat as if to blot out the diabolical features of the trapped man. Blake folded her in protecting arms and the prisoner, with a look of grim hatred mingled with disappointment, Co-manche Pete, renegade Indian and devoted follower of Black Jack himself too stealthy for the law, was seated in the back part of the courtroom, and his face the incarnation of fury, he whispered something to the shackled Despard as he passed by. Black Jack nodded his head ever so slightly and continued his march prison ward.

The first episode of the Mammoth Melodrama Serial which commences, Friday July 19th at the Veteran Theatre.

INTOLERANCE

The Veteran theatre management ever alert to secure Broadway successes for its patrons, has made the necessary arrangements whereby it will play D. W. Griffith's latest great spectacle "Intolerance," for one night only, Thursday July 25th. In every respect, including the symphonic orchestra and choir, the production to be seen will be the same as the one that ran for six months at the Liberty theatre New York.

Words are quite inadequate to tell of the spectacular wonders of this latest Griffith spectacle. Such stupendous scenes as those showing ancient Babylon in all its wonder, its mighty walls and magnificent palaces and temples, Golden Judea at the time of the Nazarine and Mediaeval Paris when Catherine de Medici was a dictator of royal policies, in themselves make "Intolerance" the most amazing theatrical offering of all time.

LACOMBE, ALBERTA

Lacombe Exhibition

President A. W. Sharpe, and his board of Directors, are hard at work these days completing final arrangements for the twenty-fifth annual Exhibition at Lacombe. In an interview Mr. Sharpe stated that he was out for a record this year, and would make a desperate effort to pull the Society out of the hole it was slowly but surely getting into. One man cannot do this alone—he needs the assistance of every farmer in the district and every citizen in the town to accomplish this. It has been the habit of some of us to leave all arrangements to a secretary who receives the magnificent sum of \$150 a year, and expect him to make this most important undertaking a success. It can't be did. Unless every assistance is given to the secretary and the directors the exhibition is bound to be more or less of a fizzle and the society is bound to lose money.

At one time Lacombe was the third largest exhibition in Alberta. That we have not held that position is due to apathy on the part of the farmers and townspeople. Lacombe is in a position to have an exhibition second to none in Alberta. We have the stock, we have the grain, in fact we have everything necessary except the interest of those most deeply concerned. This year everyone should do their utmost to put our Exhibition in the class it deserves to be in.

Several new and attractive features are added this year to prize list. Five hundred dollars have been set aside for the competitions in stock raising by boys and girls under the age of seventeen years, and there is going to be a big entry in this class. The ladies work section is also brought up to date, while the prizes for cattle and horses are raised. On both days there will be good attractions in front of the grandstand, and in addition a programme of races has been provided. A band will be on the grounds both days.

The association has arranged for the presence of either Hon. Duncan Marshall or Lieut. Gov. Brett to be present to distribute the prizes to the winners of the children's competition.

Now make this exhibition a success. Remember the days, Thursday and Friday, July 25th and 26th.

SPORTS AT EXHIBITION

The directors of the Lacombe Exhibition have now completed their sports programme for both days of the Exhibition, which takes place on Thursday and Friday, July 25th and 26th. They have prepared a programme worth while for both days, and there will be some very interesting events, in addition to grand stand attractions. The programme is as follows:

2:30 Trot or Pace, Purse \$200.00, Heats three in five. Four to enter three to start.

Half mile open running race, \$100.00. Heats two in three. Four to enter three to start.

Slow horse race for a purse of \$30.00.

Mule Derby

Bucking Contest.

Baseball tournament, \$100.00 in prizes.

Also Automobile obstacle race, greased pig contest, greased pole contest, boys' bicycle races, etc.

A band will be in attendance each afternoon.

The sports committee reserves the right to change events, and entries must be in before ten o'clock on day of race. An entrance fee of ten per cent. will be charged for the horse race. See posters for full particulars.

The annual Union Sunday School Picnic will be held on Thursday 18th inst at Henry's Lake. All Sunday schools cordially invited. A good programme is being prepared, races and other sports. Surplus funds will be equally divided between Red Cross and Y.M.C.A.

This is a chance to get either an engine or separator at a low figure and on easy terms. Entire outfit now can be seen on our premises. Hembury and Co. Lacombe.

The Central Alberta Exhibition at Lacombe takes place on Thursday and Friday, July 25th and

26th, and the directors have now completed all arrangements. The prize list is better than ever, and with the addition of the children's competitions, the exhibition promises to be most interesting. Those who have received prize lists will please note that on the cover the days read Tuesday and Wednesday, July 25th and 26th. In the horse classes "Foal 1917" in all cases should obviously be "Foal 1918."

The people who attended the dance in the Pavilion at Gull Lake on Saturday evening last had an unexpected and rare treat in the way of songs, and dancing. The Helander children, Juliette and Gabrielle, rendered popular songs of the day, and demonstrated stage dancing in a remarkable way for such young people. These young girls, we think, may claim to be Alberta's leading child entertainers, and are equal to any of the "star" entertainers we have had the pleasure to see. The visitors at the lake appreciate having these two clever youngsters with them.

The Rimbey people have the reputation for doing things in a whole hearted manner and it will be to the advantage of each member of the order to attend this meeting if possible.

MUNICIPAL HOSPITAL FOR LACOMBE

The question of providing Lacombe with adequate hospital accommodation has been thoroughly gone into by the Lacombe Hospital board, and the Board has come to the conclusion that without the aid of the surrounding country, an up-to-date hospital is out of the question. The only solution now is to take advantage of the "Municipal Hospital Act" and build and equip a hospital with funds secured by a tax levy on the farms as well as town property. A series of meetings to deal with this question has been arranged. The first of which will be held in the Methodist church, Clive, on Monday evening next at 8 o'clock. Mr. A. K. Whiston, of the department of the provincial secretary, will be present and address the meeting and explain the workings of the amended Act. Other speakers will be present also.

On Tuesday evening there will be a meeting in the Methodist Church, Bentley.

On Wednesday evening there will be a meeting in Presbyterian Church Lacombe.

WILL BILL LOSE HIS ANTY?

Dear Editor:

Dear Bill—Was reading the Globe the other day, and I came across the heading "Bill calls the Bluff," but going a little further I saw it was only one of the Bad Land's Chief's old tricks, because it should have read "Bill has Made a Bluff." Your main stronghold seems to be that my statements are not true, and that there will be trouble. Do you think I would dare to make any untrue statements about you or anyone else in a newspaper. You seem not to be able to understand why I have it in for you. I will be honest and tell you. I have it in for you for the same reason that I have it in for gophers, cutworms, coyotes, and other pests. Is it not true that you have encouraged some of your gang to keep mischievous dogs around, destroying your

neighbors horses and cattle? Is it not true that you have helped to defend them in court and other places? All of this is true, as well as my previous statements, and if you are on the hunt for trouble well, go to it, but don't hide behind the bush or come around after dark—come right out in the open, as there are none that take your threats seriously. As to the recruits being killed in Calgary, by over training, and Robt. Borden being a German spy, this is all news to me. I believe it is only one of your pipe dreams. What kind of tobacco do you smoke? I would advise you to come out in the open with your statements or smoke a milder brand of tobacco or cigars. As to my neighbors not buying Victory Bonds, that certainly is none of my business, I will leave that to them, or shall send them to you? I can truthfully say I have not heard of any

boys around here that have refused to go after they have been called up. If you know of any, by all means come around and we will go together and see them, or shall I report them to you? As to Sir Wilfrid Laurier and his henchman, Henri Bourassa, I do not understand why you put that in, as I have not heard of any election just yet. Plenty of time for that later. If the Borden government have done the right thing by the people, there will be no doubt about the outcome of the next election, regardless of your vote or mine. Now we come to the most important point. You seem to have trouble in getting anyone to sign their names against me, as they know no reason for doing so. I only need a few more on mine to win the bet. But since you have turned that down, I will make you another proposition: If you will make a written statement before the J.P. and publish it in the Western Globe, that you will not write any more local nonsense in any paper, and that you will try to be a more useful citizen, try and get a more friendly feeling in the Bad Lands District, I will call your \$50.00 anti in the Union Bank of Lacombe. But if you feel you are unable to do that my bet stands as it appeared in the Globe. Now I will leave it to the readers of the Globe to decide who is the cheap windy sport.

As the public may get tired of reading or lose interest in our affairs, and it seems that the Editor is afraid of getting his pelt damaged, and doesn't feel inclined to dig trenches, and has not "Gas Mask," this will be my last letter on this subject.

Yours for a better community.

Hans P. Hansen,
Bentley, Alberta.

THE CASE OF THE FARMER IN CANADA AND IN BRITAIN

The following news item appears in the London papers of June 7th:

A proclamation was made on Tuesday by the king under the military Service Act (No 2), 1918 withdrawing the exemptions held by men born in 1900. It will be recalled that the "clean cut" was applied to men born in the years 1895 to 1899 inclusive by the proclamation of April 20.

The present proclamation, after reciting that "a national emergency has arisen," directs that "as from June 8th, the certificates of exemption from military service specified in the First Schedule to this proclamation shall cease to have effect." Applications for certificates of exemption, it is provided, may be made in the special cases and subject to the provisions specified in the Second Schedule.

In Canada, the exemption certificates of the men of twenty and twenty-two have been cancelled. The result has been all kinds of wild talk about these certificates being treated as scraps of paper, the government breaking faith with the farmers, etc., etc.

The above shows that in Britain not only have the exemption certificates of men of these ages been cancelled, but those of men of eighteen, nineteen and twenty-three as well. But one searches in vain in English papers for any denunciations of the government on the lines of that which we hear in Canada.

Not only has the "clean cut" of all exemptions of men of these ages been made, but large additional drafts have been made upon those engaged in farming up to the age of forty-two. From other occupations men are being taken up to fifty-one years of age. The Lon-

don papers of June 18 contain the official warning to those born in 1867, 1868 and 1869.

What a shocking offence it is for Canadian papers, in the light of these facts regarding the situation of the Old Land, to devote column after column of its space to telling the Canadian farmer how much worse he has been treated than the British farmer. No where in Canada is the offence as glaring as in the case of the Edmonton paper, which went so far as to say that "the English farmer is exempt, while the Canadian farmer is conscripted."

THE ONLY DEMOCRATIC WAY

However men may differ over the necessity for or the merits of the Military service act of 1917, or its amendment by order-in-council in 1918, they are all pretty much now of one mind in thinking that we should have raised our army from the start by the draft system, says an exchange. The draft law of the United States is working out splendidly. The men are called and they go to their places with good humor and good will. There is no feeling of unfairness, no feeling that one man should bear the burden that in justice should be borne by another.

Geographical, racial, religious

and political discrimination is out of the question. The man from Gorgia does not need to ask how many soldiers are going from Ohio. The black citizen finds himself on an equality with the white; he is not denied the privilege of fending his country, nor is there cast upon the shoulders an onus more of the burden that the white man bears. The son of the master and the son of the slave gets the same treatment. The catholic, the protestant and the Jew, the man who speaks English and the man who speaks French, the American citizen everywhere gets a square deal.

Nobody is running around with a pencil and paper to prove that the Jews are more loyal than the Christians, the Blacks more patriotic than the whites or the Republicans more warlike than the Democrats. With the draft law only a year old, American soldiers are flocking overseas literally by the million. If you want to know how many Baptists, how many Texans, how many negroes, how many naturalized French-Canadians are going, turn up the census and figure it out. They are doing their share. They will not be asked to do more; they will not be allowed to do less.

This we think is a democratic way. It is a way to keep down suspicion, accusation and recrimination. It makes for unity.

SLACKERS TO BE DRAFTED

Ottawa, July 12.—With the formal exchange of notes, the "slacker's" treaty with United States has come into effect. After 60 days of grace, Canadians resident in the United States and Americans resident in Canada are respectively liable for draft for military service. Preparations for proceedings under the terms of the treaty have already been made at Ottawa.

As originally drafted, the treaty was applicable to Canadians of between 20 and 40 years of age and to Americans between 21 and 30. This has, however been modified. As it stands, it applies to Canadians between 20 and 44 and to Americans between 21 and 30, with the further provision that, should the United States extend its age limit for compulsory service, the extension will also apply to men liable to draft under the treaty.

The 60 days' grace is allowed to permit Americans and Canadians desiring of so doing to enlist in the military forces of their own country.

ALIEN DRAFTFEES GET EXEMPTION

The order of February 6 last, relating to draftees exempt from combatant service under the wartime election act, providing that such were (1) to be given the opportunity of remaining in the unit to which they had reported; (2) of being drafted to a non-combatant unit or (3) being granted leave of absence, without pay, until the calling of those liable to non-combatant service, has been superseded by an order issued at the local military headquarters yesterday morning as follows:

"Any draftee ordered to report for duty who produces evidence that he is, by virtue of the War Times Election act 1917, or order in council, P.C. 111, of January, 1918, exempt from combatant service, shall on his request, be struck off the strength as 'erroneously ordered to report.' Draftees so dealt with shall be given a certificate of leave of absence 'for 30 days from date, subject thereafter to confirmation by the registrar,' and will be instructed to

apply to the registrar as soon as possible for a certificate of exemption in exchange. In every such case the registrar will be notified of the action taken, and a copy of the certificate will be sent to him. On granting a certificate of exemption to the man he will obtain from him the original certificate and transmit it to the Military Service act district officer.

A WORD FOR MOTHERS

It is wrong for mothers to neglect their aches and pains and suffer in silence—this leads to chronic sickness and often shortens life.

If your work is tiring; if your nerves are exhausted; if you feel languid, weary or depressed, Scott's Emulsion overcomes just such conditions.

It possesses in concentrated form the very elements to invigorate the blood, strengthen the tissues, nourish the nerves and build up your strength.

CLERK IT UP

Clear cut issue has been developed between the courts and the military authorities of the country, as a result of the Lewis and other habeas corpus cases brought against the military in the Alberta courts. That there was any real necessity for the creation of the issue will be questioned by citizens whose particular interest is the speedy and successful furtherance of the war cause.

However, the situation contained the possibility of an issue and certain people were ready to take advantage of it. The military authorities and minister of justice, eager to continue carrying on in war effort without any break, gave instructions to their district officers to disregard civil court orders where they interfered with the military programme. But our result was possible. The courts, under the circumstances, were bound to enforce their authority. To have done less would have brought them into contempt.

Altogether the business is most regrettable and the sooner the authorities, military and judicial, get together and clear it up, the better. This is no time to be pausing in the chief work of the nation to squabble and quibble over technicalities that are in themselves trifles as compared with the great enterprise which the people have nearest their hearts.

NEBRASKA CONCERT AND SALE

A successful concert and sale for the benefit of the Red Cross was given at Nebraska School on July 5th. There was a large attendance, and the sum of \$137.00 was realized. Our thanks are due Mr. Weatherall, who was auctioneer, left nothing to be desired, and Gay Meadows, who kindly acted as clerk. We desire to thank all those who assisted, and by whose efforts the success was made possible.

A Winnipeg teacher named Bailey, on route for New Zealand on a prohibition campaign tour, told a school audience that in Winnipeg Schools the hymn Rule Britannia was taught and sung, much to his disgust, as it was inculcating spirit that was bad for the youngsters. Recently another man named Bailey was sent to jail in Toronto for an offense hardly more serious. Official note should be made of this man's utterance and the cable used to New Zealand to ensure him the sort of welcome he deserves.

No more phomargarine today. Food supplies in Great Britain are often so short that even the weekly allowance of four ounces of margarine is "postponed."
